Von der Ärztettkammer zertifiziert mit 8 Punkten.

Locations: Charité Campus Mitte, Charitéplatz 1, Auditorium Psychiatry, Hörsaal Nervenklinik, Bonhoefferweg 3, Department of Psychiatry
Dear colleagues,

We cordially invite you to our 10th annual Charité Conference on Psychiatric Research: Emotional Neuroscience. The conference will focus on reward processes and reward-related dysfunctions in different psychiatric disorders as addiction, mood disorders, ADHD and schizophrenia. Moreover, genetic correlates of reward processing in adolescents with excessive drug and alcohol intake will be discussed.

We are very happy that Profs. Dayan, Knutson, Bermpohl and Schumann will present their current findings at our conference. Besides the lectures we will offer workshops for research groups to present their findings. This is a very good opportunity for young investigators to discuss current research issues and methodological questions.

We invite you to submit abstracts until August 1st, which will be selected for oral presentation within workshops or for poster presentation. Please note that any attendee must enrol with his or her full name and current affiliation.

We hope that our conference will stimulate your interest and we look forward to seeing you here in Berlin.

Prof. Andreas Heinz Dr. Anne Beck Filiz Celiker

Programme

Friday 2.9.2011

18:00 Opening
18:15 Peter Dayan (London): “Modelling of reward dysfunction in psychiatric disorders”
19:00 Get Together

Saturday 3.9.2011

10:00 Brian Knutson (Stanford): “Reward dysfunction in ADHD and affective disorders”
10:45 Andreas Heinz (Berlin): “Reward dysfunction in alcoholism and schizophrenia”
11:30 Coffee break
12:00 Felix Bermpohl (Berlin): “Negative processing bias and reward dysfunction in affective disorders”
12:45 Gunter Schumann (London): “Genetic correlates of reward dysfunction in adolescents with excessive drug and alcohol intake”
13:30 Lunch & Poster session
14:30 Workshops for young scientists
16:00 End
